

Scale: 1/1

Unit: mm

The I-t curves above are based on the average values of measurements obtained under testing conditions specified by our company. The information is for reference purposes only, and is not intended to infer any guarantees of performance.

Rated voltage	Certification	Range of rated current (I_N) ^{*1}	Rated breaking current	Current carrying capacity	Temp. rise	Overload operation
AC250V	UL Listed	100mA - 3A	10000A	PF 0.7 - 0.8	*2	70K or less at $1.1I_N$
	CSA Certified		100A			
	UL Listed CSA Certified	Over 3A - 8A	200A			
AC125V	CSA Component Acceptance	Over 8A - 20A	10000A	*4		

*1: Any rated current value can be selected within this range.

*2: $1.1 I_N$ for 15 min or more after temperature stabilization occurs.

*3: $1.0 I_N$ for 15 min or more after temperature stabilization occurs.

*4:

Rated current	$1.35I_N$	$2.0I_N$
100mA - 3A	Within 60min	5s - 2min
Over 3A - 20A		12s - 2min
